| • Java 8 | • Hibernate | • Struts 2 | • Maven |
| • Javascript / ES6 | • NodeJs | • HTML | • CSS |
| • ExtJS | • JSON | • AJAX | • Git/SVN |
| • Postgresql | • Oracle 12 | • PLSQL | • Junit |

Work Experience

BNP Paribas

Software Engineer

May 2019 - Present

Works for a key financial application, which manages local clearing and custody at the security services department. Along with my team, I am responsible for developing changes in the product based on requests from different local markets.

- Majorly working on a migration activity, onboarding performance critical components from a soon to be outdated system
 - Developed test suites and parallel run methodologies for release stabilization
 - Handled level-3 production support tickets providing timely resolution
 - Tools : Java 8, Hibernate, PL/SQL, Oracle 12, Junit
-

Tata Consultancy Service

System Engineer

Jan 2016 - Apr 2019

Worked as a lead developer for the Mastercraft product development wing. Involved during all phases of SDLC, contributing in requirement gathering, development, implementation and all the way up to deployment and support.

- Made architecture designs and contributed core features across entire stack
- Developed reusable UI components using ExtJS
- Developed data visualisation capabilities in the product using Charts.js
- Extensively worked on Frontend migration to ExtJS
- Tools : Java, Hibernate, Struts 2, Postgresql, ExtJS, HTML, CSS, JBoss

Education

TKM College of Engineering, Kerala, India

Mechanical Engineering

Sep 2011 - May 2015
